MultiLit is a research initiative of Macquarie University

## About MultiLit

MultiLit is a leading provider of effective literacy instruction and intervention in Australasia. Our evidence-based work is grounded in extensive research and expertise in the science of learning, ensuring our programs deliver results with impact for the students and schools we work with.

Originating at Macquarie University, MultiLit has been providing effective literacy programs for over 25 years. We currently work with over 6,000 Australian schools, and train more than 9,000 teachers each year, as well as provide our Australian-developed programs and resources to schools all over the world. Our highly regarded professional development workshops provide the skills, knowledge and resources to support the effective implementation of all our programs.

MultiLit's work is guided by the MultiLit Research Unit, established by Emeritus Professor Kevin Wheldall AM and now led by Dr Robyn Wheldall. In total, MultiLit employs nine staff with doctorates, and many more staff (we employ approximately 180 staff in total) with relevant masters degrees (e.g., linguistics, speech pathology and special education) and relevant postgraduate specialist diplomas or certificates (e.g., learning difficulties, linguistics and literacy). Combined, these staff comprise experts in the field of reading and related skills, instructional science and behaviour management, and many are published widely in academic research journals. A large proportion of MultiLit's people have been teachers or leaders in schools or school systems in Australia and overseas.

MultiLit has a number of community education activities including the Five from Five project which provides free professional learning and teaching resources in effective evidence-based reading instruction for teachers, parents and the community. MultiLit also publishes a free periodical on reading research and related education issues called *Nomanis*. MultiLit staff are involved in professional organisations including Learning Difficulties Australia, as well as the researchED and Sharing Best Practice networks.

MultiLit has also established the Academy for the Science of Instruction, to be launched in the next couple of months. This initiative is designed to equip teachers with the essential skills they need to deliver evidence-based instruction in reading, writing and spelling.

## Key points in this submission

As an organisation that has been working closely with Australian schools and school systems for more than 25 years to improve student outcomes, MultiLit welcomes the opportunity to respond to the Consultation Paper put forward by ACT's Literacy and Numeracy Education Expert Panel.

In developing this response paper, we have chosen to address the questions that relate most to the content and format of literacy instruction, intervention and assessment. All our responses align well with the Education Directorate's 'Key Teaching Strategies', listed on pages 13–14 of the Consultation Paper. The key points can be summarised below:

1. The Response to Intervention (RtI) framework was developed to provide all students in schools with the opportunity to access additional services if they do not respond to instruction received at a whole-class level.
2. High-quality, evidence-based instruction can easily and effectively be embedded into an RtI framework. Timely implementation of this learning content may enable teachers to respond equitably to the range of skills and backgrounds of students in their classrooms before learning gaps become entrenched and the associated negative impacts on wellbeing take effect.
3. Assessment (including ones that allow for screening and progress monitoring) should inform teachers' decisions around what instructional tier is most suitable for each student.
4. Mandating the provision of evidence-based instruction in ACT government schools represents another step towards more equitable learning outcomes for students, given that it will result in less variability in the quality of content received by students.
5. Prescribing evidence-based instruction and intervention will alleviate teacher workload by constraining the selection of materials to those that are most likely to be effective. Prescribing assessments and an assessment protocol that aligns with an RtI framework will be similarly cost- and time-effective if the measures are valid and reliable, and if they directly inform decisions around students' learning.

## Question 1.

**What supports are required to ensure the literacy and numeracy outcomes within the Australian Curriculum are met? Are there examples of system-wide or school-based supports that have been found to be particularly effective?**

To ensure that strong literacy and numeracy outcomes are achieved, students must receive instruction that is evidence-based. That is, instruction should adhere to the most up-to-date scientific research on how children learn and what foundational skills must be acquired to reach the requisite level of mastery within each subject area. With specific regard to literacy, this means that the content should cover phonemic awareness, phonics, fluency, vocabulary and comprehension,<sup>1</sup> with attention given not only to reading, but also to spelling and written expression.<sup>2</sup> High-quality instructional materials support teachers in delivering content that covers all these areas, in both a format and dosage that is appropriate to the age and developmental stage of students.<sup>3</sup>

MultiLit publishes instructional programs that meet the above criteria for ‘evidence-based’ and ‘high-quality’. MultiLit programs take at least five years to develop, and their content and design are informed by scientific reading research. They also undergo a rigorous research protocol involving field trials, pilots and randomised control trials in schools using standardised assessments and quantitative analysis. Independent reports on the programs by respected researchers have concluded that they have strong evidence of efficacy.<sup>4, 5</sup> MultiLit programs are best implemented within a Response to Intervention (RtI) framework, where students receive instruction in a whole-class (Tier 1), small-group (Tier 2) or individual (Tier 3) setting, depending on their level of need. Appendix 1 (‘InitialLit–F Links with the ACARA English Curriculum V9’) shows the clear links between InitialLit (i.e., Tier 1) teaching content and the Australian Curriculum learning objectives.

Yates Avenue Public School in New South Wales provides a useful school-based example of how InitialLit can be implemented in early years’ classrooms to maximise students’ results. In 2018, two-thirds of Year 1 students at the school were assessed as needing reading intervention, which the leaders realised was because instruction in Foundation was not effective. So, that same year, the school began teaching InitialLit – a Tier 1 program – in its Foundation Year classrooms. In 2019, InitialLit was extended to Year 1 and, by 2020, it was in Year 2. In 2021, after the school had been implementing InitialLit for three years, no student required Tier 2 reading intervention. In 2022 and 2023, even after COVID-19 lockdowns disrupted learning, only 8–10% of students required intervention. Results from NAPLAN 2022 provide further support for attributing the observed growth to the implementation of InitialLit, in addition to Spelling Mastery and Explicit Direct Instruction, within an RtI framework (Table 1).

**Table 1.** Yates Avenue Public School NAPLAN scores 2018/2022.

	2018	2022	Growth
School's Year 3 mean reading score	396	434	+38
State's Year 3 mean reading score	437	438	+1

Catholic Education Archdiocese of Canberra & Goulburn provides a useful case study for system-wide implementation of MultiLit programs, since a large proportion of schools within this diocese began delivering InitialLit within the last couple of years. A report by Equity Economics found that Catholic schools in the ACT improved strongly over the period in which the model that prescribed this implementation was in place. According to the Year 3 NAPLAN results, the number of students in ACT Catholic schools who performed below those in similar schools decreased significantly from 2019 to 2022 (Table 2).<sup>6</sup> That this occurred during a period of COVID-19 lockdowns is notable. The results can't be explained by demographics because the comparison schools have a similar socio-economic profile. Nor can they be explained by differences in the numbers of students with additional learning needs.<sup>7</sup>

**Table 2.** Students in ACT Catholic schools improving 'well below' or 'below' the national average for students in similar schools, according to Year 3 NAPLAN scores.

NAPLAN domain	2019	2022
Reading	42%	4%
Spelling	71%	13%
Writing	71%	21%

## Question 2.

### What teaching practices have been found to consistently improve literacy and numeracy outcomes?

Explicit instruction gives students a clear understanding of what to expect and how to respond during lessons. This type of instruction is typically fast-paced, interactive and engages all students in the learning task. Students are less likely to be distracted and more likely to be working at the right level, leading to a sense of success, which in turn motivates them to participate in their own learning. Explicit instruction is important in a literacy teaching context because written language is a cultural invention, and humans have not evolved to absorb its intricacies implicitly.<sup>8</sup> There is clear research evidence in support of literacy approaches that employ explicit instruction<sup>9</sup>, particularly when the lessons are structured systematically (i.e., within a set scope and sequence).<sup>10</sup>

In addition to using explicit and systematic instruction, we recommend that teachers support their students by adhering to an RtI model. As has already been mentioned in our response to Question 1, RtI is a framework within which instructional content can be delivered to students in settings that align with their needs. The RtI model is based on a ‘non-categorical’ approach to intervention, meaning that students are provided with effective learning support irrespective of a diagnosis of learning difficulty or disability.<sup>11</sup> The premises of this approach are that (a) all students who are not making good progress in any area of the curriculum are entitled to support, and (b) the type of intervention is determined by the instructional need rather than the cause – struggling readers need an evidence-based reading intervention that targets the relevant subskills, no matter the reason for their difficulties.

## Question 4.

**Does the Education Directorate’s approach of suggesting but not mandating teaching approaches support improved learning outcomes or would a greater degree of evidence-based prescription be more effective?**

From the outset, we would encourage that any arguments received in response to this question should be based on evaluating the impacts on students, rather than teachers. As with any other service industry, what matters most is the effect on the ‘consumer’ – in this case, the student and their family. The stakes in the context of the teaching profession are high as failure to acquire written literacy skills is associated with negative academic, vocational and general wellbeing outcomes.<sup>12</sup> Anything that can be done to reduce the number of students obtaining these outcomes must be done, irrespective of arguments focusing on the experiences of teachers.

While the science underpinning the teaching of literacy and numeracy is still evolving, there is enough research to mandate certain practices based on the best available empirical evidence. Mandating teaching approaches that are evidence-based would help to reduce the number of classrooms in which students are receiving low-quality instruction. This recommendation needn’t conflict with teachers’ positive experiences of working in the classroom or their professionalism. There is a vast number of curriculum materials and teaching resources available online, published by government education departments and agencies, not-for-profit organisations, commercial entities and individuals. This content varies in quality and adherence to research evidence, and receiving guidance that limits the selection of such materials to those with scientific support will help to alleviate teachers’ workload and enhance their understanding of the content they are teaching.

Mandating evidence-based teaching approaches will necessarily involve detailing what these approaches look like in practice. Pre-prepared lessons (alongside explicit professional learning and ongoing support) may therefore be useful since this step further alleviates teacher workload and compensates for gaps in teacher knowledge. To this end, we recommend a transparent process to endorse a selection of high-quality, evidence-based programs, resources and materials to guide schools in their choices.

## Question 5.

Are there examples of system-wide approaches to literacy and numeracy teaching in other jurisdictions that the Panel should examine?

The approach taken by the Catholic Education Archdiocese of Canberra & Goulburn has been briefly described in our response to Question 1. It is further described on page 41 of the Grattan Institute's recently published report on reading instruction.<sup>13</sup>

A second example wherein high-quality literacy instruction has been implemented at scale is the Closing the Gap project. In partnership with the Australian Government, MultiLit has been working with 42 majority Indigenous schools, many of which are in the most remote areas of the country. This project involves the delivery of Tier 1 and Tier 2 programs by teachers and education assistants. Tier 3 instruction is delivered through online tutoring with the MultiLit Literacy Centres. Remote and very remote schools were hit particularly hard by the immediate and ongoing effects of the COVID-19 pandemic, and the well-known existing challenges associated with remote schooling were amplified as a result. Nonetheless, schools that have been able to overcome these challenges to a sufficient extent to implement the programs, even if not always to 'textbook perfection', have been very positive about the changes they are seeing in student learning.

**Figure 2.** Map of MultiLit Closing the Gap schools.

## Question 7.

**What approaches to assessment and screening would provide the most useful data to support educators and school leaders in understanding student progress, identifying need and ensuring consistent improvement in literacy and numeracy outcomes?**

In addition to NAPLAN (National Assessment Program – Literacy and Numeracy) testing, we would recommend introducing the Year 1 Phonics Screening Check (PSC) to ACT government schools. This assessment would provide the necessary data to establish a systemic evidence-based early intervention plan in a whole-school RtI approach. Without a systemic early literacy assessment, many students are not identified as struggling readers until Year 3, by which time there are large gaps in student achievement that are more difficult to remediate than if they had been identified in Year 1.

The UK Government made the Year 1 PSC mandatory in English schools in 2012. There is good evidence for the PSC’s strong validity,<sup>14</sup> with additional research suggesting that the PSC played a significant role in England’s improved performance in the most recent PIRLS (Progress in International Reading Literacy Study) assessment.<sup>15</sup>

Beyond the PSC, we will limit ourselves here to briefly describing the assessment protocols that best support a cascading RtI approach to teaching reading. To track the termly progress of whole classes and identify students who would benefit from more intense instruction (i.e., screen students into Tier 2 intervention), we would recommend using curriculum-based measurement (CBM). Assessments that fall into this category are quick but sensitive, allowing teachers to readily gauge whether a student is reading at the expected level. Some examples of commonly used CBMs of reading include DIBELS-8, Acadience Reading K–6, and Wheldall Assessment of Reading Passages (WARP).

In addition to regularly administering CBMs of reading 3–4 times per year to whole classes, teachers (or support staff) should administer more frequent (i.e., fortnightly) progress monitoring checks with students in Tier 2 and Tier 3 settings. The CBM assessments listed above have parallel forms of equivalent difficulty for this purpose. Based on progress monitoring data, students who fail to make gains after receiving approximately six weeks of Tier 2 intervention may be moved to Tier 3 intervention. Those who plateau in a Tier 3 setting may benefit from a more in-depth assessment of their language and cognitive skills.

---

With respect to assessment data that are not useful for teachers' decision-making, many schools are using out-dated and time-consuming assessments that should be removed or replaced. Examples are Running Records and benchmarking assessments like PM and Fountas & Pinnell. Conducting these assessments eats into teachers' valuable time and does not provide reliable data.<sup>16</sup> Prior to the implementation of an Rtl framework, all systems should review the validity and reliability of the assessments that schools are required to use and make changes where necessary. Teachers often bemoan that too much time is taken up with assessing students, but if the purpose behind ongoing assessments is made clear, and teachers know what to do with the results, they will begin to see how beneficial it is and attitudes will change.

## Question 10.

**Are there any examples of effective system-wide and school-based assessment, data informed teaching, and reporting for literacy and numeracy that the Panel should examine?**

Please refer to our response to Question 7 for an assessment protocol (and example assessments) that may be used within an Rtl framework. Essentially, by screening and tracking the reading progress of students in each tier of the Rtl model, teachers can readily respond to students' difficulties in a systematic and manageable way.

Appendix 1 of the Reading Pledge<sup>17</sup> provides a more comprehensive list of assessments of literacy that may be used at each tier in the Rtl framework.

## Question 11.

**What evidence-based supports and interventions are most effective for supporting students who have not yet reached expected proficiency in literacy and numeracy? Are there any particular supports that are more effective for students from specific equity cohorts (e.g., EALD, Aboriginal and Torres Strait Islander Students)?**

An Rtl model that is predicated on evidence-based, effective instruction is universally applicable. It is a student-centred approach that is intentionally focused on instructional need and therefore can be implemented for all students, including those in identified equity cohorts.

In our response to Question 5, the Closing the Gap project was given as an example of how high-quality literacy instruction can be implemented at scale. In this case, the programs being implemented in majority Indigenous schools are the same as what is implemented elsewhere, with the same Rtl approach guiding the allocation of each student to a suitable tier of instruction. That is, if students are not progressing in response to receiving whole-class instruction focused on English word-level decoding, then they move to a more intense instructional setting, regardless of the specific source of their difficulty in that area. The Rtl model is both pedagogically and cost effective. Consequently, schools' human and financial resources can be devoted to the students who need them most.

---

<sup>17</sup> Five from Five, AUSPELD, & Learning Difficulties Australia. (2024). [Reading Pledge](#). MultiLit.

## Question 12.

What specific supports would be most contextually appropriate for ACT public school students who have not yet reached expected proficiency in literacy or numeracy in the following learning phases: P-2, 3-6, 7-10, 11-12?

As has been made clear in our previous responses, the current research on literacy instruction supports the provision of explicit and systematic teaching, as delivered within an RtI framework. Below are some specific MultiLit programs that are suitable for the year level ranges referenced in this question. All MultiLit programs are explicit, systematic and intentionally designed to allow for RtI implementation.

- **Tier 1:** *InitialLit* (comprising *InitialLit-F*, *InitialLit-1* and *InitialLit-2*) is a three-year series of whole-class instruction in the five 'keys' to reading, using explicit and systematic teaching methods.
- **Tier 2:** *MiniLit Sage* is a small group reading intervention focusing on accurate and fluent decoding and word reading for students in Years 1 and 2.

*LanguageLift* is a small group intervention focusing on oral language development for students from Foundation to Year 2.

*MacqLit* is a small group reading intervention that includes phonics for reading and spelling, fluency, vocabulary and comprehension for students in Year 3 and up.

- **Tier 3:** *Reading Tutor Program* is a one-to-one reading intervention that includes phonics for reading and spelling, fluency, vocabulary and comprehension for students in Year 3 and up.

## Question 13.

Should the Education Directorate consider targeted small group or individual tutoring to support students to improve literacy and numeracy? If so, what models should be adopted?

As per our responses to all previous questions, we strongly endorse the implementation of an RtI framework within which students with difficulties receive increasingly individualised instruction. This may be delivered in a small group (Tier 2) or individual (Tier 3) format, depending on the observed level of need (please refer to our responses to Question 7 for a brief description of assessment protocol that should guide decision-making). Importantly, to ensure there is no confusion or cognitive overload on the part of the student receiving intervention, instruction delivered via small group or individual formats must align with the instruction delivered in the whole-class (i.e., Tier 1) setting.

## Conclusion

The Expert Panel may be interested in the 2023 MultiLit publication (via MRU Press), *Effective Instruction in Reading and Spelling*. This edited textbook has contributions from experts within the MultiLit Research Unit (MRU), as well as from other acknowledged Australian and international experts. It is an accessible, up-to-date guide to evidence-informed practices in teaching reading and spelling, grounded firmly in the Science of Reading and its application in classrooms. This is a practical reference book for any teacher of reading. Available in print and digital versions, this book is proving to be popular in schools and in universities in Australia and overseas. More information is available at <https://bookshop.multilit.com/product/effective-instruction-in-reading-and-spelling/>. MultiLit would be happy to provide a complimentary copy of this publication to the Expert Panel on request.

Thank you for the opportunity to have input into the ACT Literacy and Numeracy Inquiry via this submission. If the Expert Panel has questions, requires any clarification, or would like further information, we would be more than happy to elaborate on the information contained in this submission.

# Appendix 1: Initialit Links with the ACARA English Curriculum

# InitialLit-F Links with the ACARA English Curriculum V9

**Note:** This document was prepared in June 2022 in an endeavour to support teachers of InitialLit who may be aligning their instruction with the ACARA English Curriculum V9. Please refer to the 'Note about ...' each curriculum strand for specific information related to the InitialLit program and curriculum delivery.

Curriculum content is addressed in the whole-class ('On the mat') lesson and further practised and consolidated in the small group and independent activities. Additionally, shared storybook lessons address many aspects of language comprehension.

ACARA Code	ACARA Content descriptions	InitialLit-F lessons overview	InitialLit-F content
<p><b>Note about Language: Language for interacting with others (oral language) in InitialLit-F:</b> Oral language underpins all other component skills in literacy development and across all areas of learning across the curriculum. Curriculum content descriptors for the sub-strand: Language for interacting with others, are addressed throughout the InitialLit Foundation year starting in Lesson 1 of the explicit whole class component as well as during the small-group activities. It is important to recognise that development of oral language skills can, and should, initially be done separately to the teaching of word recognition skills. Skills for interacting with others are further extended during the Storybook component of the program, where quality children's literature is used to develop vocabulary and listening comprehension skills, utilising the interactive reading and vocabulary instruction techniques.</p>

<p><b>Note about Language: Text structure and organisation (print conventions) in InitialLit-F:</b> Students learn about the conventions of print during the Storybook component of InitialLit-F as well as during the whole-class lessons and small group work. Students learn these conventions alongside phonics instruction. Teachers should plan to include digital texts in addition to the use of printed materials.</p>					
AC9EFLA04	<p><b>Language</b> <b>Text structure and organisation</b></p> <ul style="list-style-type: none"> <li>▶ understand conventions of print and screen, including how books and simple digital texts are usually organised</li> </ul>	<p>Whole class explicit teaching ('On the mat')</p> <p>Small group and independent activities</p> <p>Storybook</p>			
<p><b>Reading in InitialLit-F</b></p>					
<p><b>Note about Literacy: Phonic and word knowledge (phonics) in InitialLit-F:</b> InitialLit utilises a sound-by-sound synthetic phonics approach to teach students to read and spell. InitialLit-F follows a prescribed sequence of phonic skills including all single letter-sound correspondences and some basic digraphs. To develop automatic word recognition, InitialLit-F provides multiple opportunities for students to practise applying phonic skills to the reading of single words in isolation and in sentences. It explicitly teaches the following digraphs 'ee', 'ay', 'oo', 'ck', 'zz', 'll', 'ff', 'ss', 'sh', 'ch', 'wh', 'ng', 'th'. Split digraphs and the remaining alphabetic code will be explicitly taught in Year One, however, teachers should point out unknown graphemes incidentally and as needed when encountered in texts or in writing tasks.</p>					
<p><b>Writing in InitialLit-F</b></p>					
<p><b>General overview:</b> Content from Literacy: Creating texts will be addressed in explicit whole-class lessons throughout the year and within the small-group and independent activities. Teachers should plan additional time for writing lessons for composition and/or to extend the utilisation of resources and suggested activities in the Storybook lessons.</p>					
<p><b>Note about Literacy: Creating texts (writing) in InitialLit-F:</b> Students are explicitly taught the mechanical aspects of writing (handwriting, spelling, constructing an accurate sentence) in InitialLit-F in lessons throughout the year. Compositional aspects of writing should be flexibly addressed in Foundation depending on the skill level and readiness of the class. Teachers should address the syllabus content when students do writing tasks within InitialLit lessons e.g., dictation, spelling, storybook writing tasks, etc. InitialLit teachers will provide a gentle introduction to some grammar in Foundation, however grammar concepts will be taught and monitored more formally in InitialLit-1 and InitialLit-2.</p>					
<p><b>Note about Literacy: Phonic and word knowledge (spelling) in InitialLit-F:</b> Spelling and reading are taught alongside each other following the InitialLit-F phonic sequence. Although the focus is on the accurate spelling of one-syllable words, students are encouraged to apply their phonic knowledge to any unfamiliar word they need in their writing. Phoneme blending for reading and phoneme segmentation for spelling are practised extensively. Word and sentence dictation occur in every lesson cycle.</p>					
<p><b>Note about Literacy: Creating texts (handwriting) in InitialLit-F:</b> InitialLit-F teaches correct formation of all letters from the start, with an initial focus on lower case. Regular practice should be timetabled for students to work on posture, pencil grip and correct letter formation. Students will be introduced to capital letters in lessons as well as during dictation. More formal instruction of capital letter formation takes place in InitialLit-1.</p>					
AC9EFLY08	<p><b>Literacy</b> <b>Creating texts</b></p> <ul style="list-style-type: none"> <li>▶ form most lower-case and upper-case letters using learnt letter formations</li> </ul>	<p><b>Phonic Set 1</b> Lessons 13–27: m, s, t, a</p> <ul style="list-style-type: none"> <li>▶ Beginning sound discrimination</li> <li>▶ Concept of a letter: linking sound to letter; handwriting link</li> <li>▶ Oral blending and segmenting – two and three sounds</li> <li>▶ End sound discrimination</li> <li>▶ Read VC, CVC words using letters taught</li> </ul> <p><b>Phonic Set 2</b> Lessons 28–39: p, i, f, r</p> <ul style="list-style-type: none"> <li>▶ Beginning sound discrimination</li> <li>▶ Concept of a letter: linking sound to letter; handwriting link</li> <li>▶ Oral blending and segmenting – two and three sounds</li> <li>▶ End sound discrimination</li> <li>▶ Read and spell VC, CVC words using all letters taught</li> </ul>	<ul style="list-style-type: none"> <li>▶ Recognise lower case letters (graphemes) and the most common sounds (phonemes) they represent</li> <li>▶ Identify and write single sounds for vowels and consonant letters</li> <li>▶ Write lower case letters correctly</li> <li>▶ Orally blend and segment VC and CVC words through phonemic awareness activities</li> <li>▶ Read and write VC and CVC words using the letters taught (synthetic phonic approach)</li> <li>▶ Manipulate and discriminate beginning, middle and end sounds in words</li> <li>▶ Understand the importance of sound and letter position through whole class and small group guided activities, e.g., word building</li> <li>▶ Communicate appropriately in pairs, groups, classroom interactions</li> <li>▶ Respond to simple questions</li> <li>▶ Follow verbal instructions</li> </ul>

## InitialLit-F lessons overview

## InitialLit-F content

## Sounds and Words Books and InitialLit-F decodable readers Levels 1-9

**Note about Literacy: Analysing, interpreting and evaluating (reading fluency) in InitialLit-F:** Fluency is achieved once students can accurately blend sounds together to read words with minimal effort. InitialLit provides opportunities for students to work towards fluency as soon as there is evidence that they can blend and segment successfully. Skills to develop fluency are taught explicitly during 'On the mat' lessons and regular opportunities for practice are essential within teacher-led small group sessions. Students are supported to reach fluency at their own pace. Some students will become fluent in the Foundation year while most will need continuing practice to attain greater fluency in Year 1 and Year 2. Automatic word recognition leading to reading fluency is necessary for students to have good reading comprehension.

**Note about Literacy: Analysing, interpreting and evaluating (reading comprehension) in InitialLit-F:** Reading comprehension skills are developed along with the decoding of words and texts during whole-class lessons and are further developed when reading decodable InitialLit readers in the small group sessions. InitialLit readers have a 'before, during and after' reading guide, 'check for understanding' questions and 'extra laps' for fluency practice. Additionally, with the Simple View of Reading in mind, language comprehension is supported through engagement with quality storybooks that are read to students promoting further development of comprehension skills and strategies. Descriptors below will apply to whole class, small group, and Shared Storybook lessons throughout the Foundation year.

## Storybook lessons

**Notes about Literature (vocabulary and comprehension) in InitialLit-F:** The Storybook lessons of InitialLit are designed to encourage oral language comprehension and provide opportunities for students to speak while also fostering vocabulary growth. Vocabulary knowledge has been shown to be important to student's later reading comprehension ability. Along with more general comprehension work, words are selected from each storybook for in-depth and explicit vocabulary instruction. Similar comprehension and vocabulary teaching strategies are also recommended when working with decodable readers during small group reading time and in other parts of the day. Teachers need to consciously and explicitly build the language skills of students in the early primary years by providing a rich oral language classroom environment which is not limited to the InitialLit session.

**Notes about Literacy (creating texts) in InitialLit-F:** In Session 4: 'Beyond the book', students engage in a 'Getting creative' activity with a writing task linked to the activity. The writing task increases gradually in complexity to fit with writing expectations for the beginning, middle and end of the Foundation year. Compositional skills move from writing a caption to a sentence to a short paragraph of two or more sentences. Teachers will need to include an additional focus on the shared editing of short written texts (AC9EFLY06) and the delivery of short spoken texts using features of voice such as appropriate volume (AC9EFLY07).

# InitialLit-1 Links with the ACARA English Curriculum V9

**Note:** This document was prepared in June 2022 in an endeavour to support teachers of InitialLit who may be aligning their instruction with the ACARA English Curriculum V9. Please refer to the 'Note about ...' each curriculum strand for specific information related to the InitialLit program and curriculum delivery.

Curriculum content is addressed in the whole-class ('On the mat') lesson and further practised and consolidated in the small group and independent activities. Additionally, shared storybook lessons address many aspects of language comprehension.

ACARA Code	ACARA Content descriptions	InitialLit-1 lessons overview	InitialLit-1 content
<p><b>Note about the Language strand including language for interacting with others, text structure and organisation and language for expressing and developing ideas in InitialLit-1:</b> Language underpins all other component skills in literacy development and across all areas of learning across the curriculum. Curriculum content elaborations for interactive language and communication, text structure and organisation and language for expressing and developing ideas are addressed throughout the InitialLit-1 year starting in Lesson 1 of the explicit whole-class component as well as during the small-group activities. The Language strand is further developed during the Storybook component of the program where quality storybooks are used to develop rich vocabulary and language, reading comprehension and writing skills.</p>			
	<p><b>Language</b></p> <p><b>Language for Interacting with others</b></p> <ul style="list-style-type: none"> <li>▶ understand how language, facial expressions and gestures are used to interact with others when asking for and providing information, making offers, exclaiming, requesting and giving commands</li> <li>▶ explore language to provide reasons for likes, dislikes and preferences</li> </ul> <p><b>Interacting with others</b></p> <ul style="list-style-type: none"> <li>▶ explore how repetition, rhyme and rhythm create cohesion in simple poems, chants and songs</li> </ul> <p><b>Language for expressing and developing ideas</b></p> <ul style="list-style-type: none"> <li>▶ understand that a simple sentence consists of a single independent clause representing a single event or idea</li> <li>▶ understand that words can represent people, places and things (nouns, including pronouns), happenings and states (verbs), qualities (adjectives) and details such as when, where and how (adverbs)</li> <li>▶ compare how images in different types of texts contribute to meaning</li> <li>▶ understand that written language uses punctuation such as full stops, question marks and exclamation marks, and uses capital letters for familiar proper nouns</li> </ul>	<p>Whole class explicit teaching ('On the mat')</p> <p>Small group and independent activities</p> <p>Storybook</p>

## Reading in InitialLit-1

**Note about Literacy: Phonic and word knowledge (phonics) in InitialLit-1:** InitialLit utilises a sound-by-sound synthetic phonics approach to teach students to read and spell. In InitialLit-1, instruction is completed in most of the remaining phonemes of English and concentrates on teaching several alternative spellings for many of the phonemes already learnt. Alternative sounds are also introduced for a selection of single letters and digraphs. Trigraphs are also taught in InitialLit-1, and quadgraphs are introduced in InitialLit-2.

InitialLit-1 follows a prescribed sequence of phonic skills. The first 18 lessons revise phoneme-grapheme correspondences from InitialLit-F. To develop automatic word recognition, InitialLit-1 provides multiple opportunities for students to practise applying phonic skills to the reading of single words in isolation and in sentences. It explicitly teaches the following digraphs 'ai', 'ay', 'ee', 'ea', 'oa', 'ow', 'y' (cry), 'igh' (light), 'ue', 'ew' (grew), 'ar', 'or/ore', 'ir', 'ur', 'er', split digraph, 'ow' (cow), 'ou' (cloud), 'aw', 'au', 'y', '\_ey', 'oy', 'oi', 'eer', 'ear' (hear), 'ear' (bear), 'air', 'are' (care), 'soft c', 'soft g', '\_dge/\_ge', '\_tch'.

ACARA Code	ACARA Content descriptions	InitialLit-1 lessons overview	InitialLit-1 content
<b>Writing in InitialLit-1</b>			
<p><b>General overview:</b> Content from AC9E1LA03, AC9E1LY06 will be addressed in explicit whole-class lessons throughout the year and within the small-group and independent activities. Teachers should plan additional time for writing lessons for composition. More extended writing activities are given with each Storybook lesson. These writing tasks may be split over several sessions and cover three main types of text: imaginative, persuasive and informative. Step-by-step instructions take the students from a modelled example through to guided work and independent writing.</p>			
<p><b>Note about Literacy: Creating texts (writing) in InitialLit-1:</b> Teachers should plan additional time for digital technology use, incorporating opportunities for the creation of multimodal texts and the use of digital tools into their class program (AC9E1LA05). To practise spelling words in context, short writing activities are integrated into the lessons, and these gradually increase in difficulty. At first, students are asked to write dictated sentences. As the year progresses, they are asked to write two or more sentences independently after a group discussion about a topic. Teachers should address the curriculum content when students do writing tasks within InitialLit lessons e.g., dictation, spelling, storybook writing tasks, etc. Grammar concepts are taught and monitored in InitialLit-1 and applied to writing tasks.</p>			
<p><b>Note about Literacy: Phonic and word knowledge (spelling) in InitialLit-F:</b> Spelling and reading are taught alongside each other following the InitialLit-1 phonic sequence. Students are encouraged to apply their phonic knowledge to any unfamiliar word they need in their writing. Phoneme blending for reading and phoneme segmentation for spelling are practised extensively. Word and sentence dictation occur in every lesson cycle.</p>			
<p><b>Note about Literacy: Creating texts (handwriting) in InitialLit-1:</b> Students are explicitly taught handwriting skills in InitialLit-1 lessons throughout the year. InitialLit-1 continues to practise the correct formation of all letters that were introduced in InitialLit-F. When learning new digraphs or trigraphs, they will have opportunities to practise the 2 or 3 letters while also saying the phoneme out loud. The students will have already learned the correct formation for each letter they are writing. There will also be formal instruction in capital letter formation.</p>			
AC9E1LA07	<p><b>Language</b> <u>Language for expressing and developing ideas</u></p> <ul style="list-style-type: none"> <li>▶ understand that words can represent people, places and things (nouns, including pronouns), happenings and states (verbs), qualities (adjectives) and details such as when, where and how (adverbs)</li> </ul>	<p><b>Lessons 1-18</b></p> <ul style="list-style-type: none"> <li>▶ Revision of skills covered in InitialLit Foundation</li> </ul>	<ul style="list-style-type: none"> <li>▶ Orally blend and segment CVC words through phonemic awareness activities</li> <li>▶ Segment, blend and count syllables</li> <li>▶ Identify long and short vowel sounds</li> <li>▶ Read and spell words and sentences using the most common letter-sound correspondences for the 26 letters of the alphabet</li> <li>▶ Read and spell words and sentences using the digraphs 'ck', 'sh', 'wh', 'ch', 'th', 'oo', 'ng'</li> <li>▶ Read and spell 20 tricky words (irregular high frequency words or high-frequency words with graphemes not yet taught) introduced in InitialLit-Foundation</li> <li>▶ Review of terminology: syllable, vowel, digraph</li> <li>▶ Introduction to new terminology: phoneme, consonant</li> <li>▶ Concept of a Super Sentence</li> <li>▶ Review and practise handwriting of lower- and upper-case graphemes introduced in InitialLit-F</li> </ul>

## Sounds and Words Books and InitialLit-1 decodable readers Levels 10-16

**Note about Literacy: Analysing, interpreting and evaluating (reading fluency) in InitialLit-1:** Students are given lots of practice to ensure that they can move from overt sounding out to recalling permanently stored words. We want them to access words off the page accurately and with speed because they have a good understanding of the code. When an unfamiliar word is encountered, they should utilise their phonic knowledge quickly to work out the word, and then confirm the word by checking that it makes sense (not the other way round). Skills to develop fluency are taught explicitly during 'On the mat' lessons and regular opportunities for practice are included within teacher-led small group sessions.

**Note about Literacy: Analysing, interpreting and evaluating (reading comprehension) in InitialLit-1:** Reading comprehension skills are developed along with the decoding of words and texts during whole class lessons and are further developed when reading decodable InitialLit readers in the small group sessions. InitialLit readers have a 'before, during and after' reading guide, and 'check for understanding' questions at the back. Fluency skills are also developed in both the explicit teaching part of the lesson and in the small group sessions, developing the students' comprehension skills. Language and reading comprehension are also supported through engagement with quality storybooks that are read to the students promoting further development of comprehension skills and strategies. Descriptors below will apply to whole class, small group, and Shared Storybook lessons throughout Year One.

ACARA Code	Language	Literature	Literacy	Text structure and organization	Engaging with and responding to literature	Examining literature	Creating literature	Texts in context	Interacting with others	Analysing, interpreting and evaluating	Small group and independent activities component

## InitialLit-1 lessons overview

## InitialLit-1 content

## Storybook lessons

**Notes about Literacy: Creating texts and Language: Language for expressing and developing ideas in InitialLit-1:** Vocabulary development and comprehension strategies are taught in both the explicit part of the InitialLit lesson as well as in the small group and independent activities time using the Sounds and Words Books and InitialLit readers. Child-friendly definitions are provided for the new vocabulary as well as when working with decodable readers and age-appropriate texts for the more capable readers.

The Storybook lessons of InitialLit are designed to encourage listening and reading comprehension and provide opportunities for students to speak while also fostering vocabulary growth. Vocabulary knowledge has been shown to be important to students' later reading comprehension ability. Along with more general comprehension work, words are selected from each storybook for in-depth and explicit vocabulary instruction.

Teachers need to build the language skills of students consciously and explicitly in the early primary years by providing a rich oral language classroom environment which is not limited to the InitialLit session but is fostered throughout the day as well. In 'Further Sessions'- Writing task, step by step instructions take students from a modelled example, through to guided and independent writing. The writing tasks cover the three main types of text: imaginative, persuasive and informative and are scaffolded by the utilisation of writing templates. Teachers will need to include additional focus on re-reading to edit created texts (AC9E1LY06) and the delivery of short oral and/or multimodal presentations using appropriate gesture, volume and pace (AC9E1LY07).

AC9E1LA09 AC9E1LA10	<b>Language</b>	<p><b><u>Language for expressing and developing ideas</u></b></p> <ul style="list-style-type: none"> <li>▶ recognise the vocabulary of learning area topics</li> <li>▶ understand that written language uses punctuation such as full stops, question marks and exclamation marks, and uses capital letters for familiar proper nouns</li> </ul>	The <b>Storybook lessons</b> focus on listening and reading comprehension, oral language and vocabulary and writing skills.
AC9E1LE01	<b>Literature</b>	<p><b><u>Literature and contexts</u></b></p> <ul style="list-style-type: none"> <li>▶ discuss how language and images are used to create characters, settings and events in literature by First Nations Australian, and wide-ranging Australian and world authors and illustrators</li> </ul>	Throughout the year, the varied activities of the Storybook lessons in InitialLit-1 will address curriculum content for Language, Literacy and Literature, and will also reinforce other content addressed explicitly in whole-class lessons.
AC9E1LE02		<p><b><u>Engaging with and responding to literature</u></b></p> <ul style="list-style-type: none"> <li>▶ discuss literary texts and share responses by making connections with students' own experiences</li> </ul>	<ul style="list-style-type: none"> <li>▶ Explain personal opinions orally using supporting reasons, simple inferences and reasonable prediction</li> <li>▶ Contribute to group and class discussions about the story, characters and events</li> <li>▶ Write words and sentences in response to stories to describe characters and events and to express preferences</li> <li>▶ Draw on personal experiences and text knowledge to express opinions and compose sentences about varying aspects of the storybook</li> <li>▶ Use a variety of planning strategies and tools for creating texts including graphic organisers</li> <li>▶ Identify the purpose of different texts (imaginative, persuasive, informative, poetry)</li> <li>▶ Show understanding of texts through appropriate written responses e.g., recounting events in stories or own similar events; writing poetry; using scaffolding to plan imaginative, informative and persuasive texts</li> <li>▶ Apply knowledge of grammar concepts taught during the explicit part of the lesson to improve the quality of written texts</li> <li>▶ Identify grammatical and figurative language features in texts that enhance meaning and purpose e.g., adjectives, synonyms, prepositions, time connectives, verbs, idioms, tense, alliteration, similes</li> <li>▶ Express, discuss and compare opinions about characters, events and settings in text</li> <li>▶ Identify concepts about print (directionality, front and back covers, title, author and blurb)</li> <li>▶ Use comprehension strategies: predicting, making connections, questioning, summarising (identifying main idea) and visualising to show understanding of story books</li> <li>▶ Retell stories and events in logical sequence to demonstrate understanding of the text</li> <li>▶ Respond to literal, inferential, definitional and evaluative questions during and after reading to develop reading comprehension</li> <li>▶ Discuss, define and investigate new vocabulary by deeper exploration e.g., definitions, synonyms, antonyms</li> <li>▶ Classify new words into appropriate grammatical concepts using 'Helpful House of Words' poster</li> <li>▶ Understand that choice of vocabulary adds to the effectiveness of the text</li> <li>▶ Revise vocabulary by encouraging students to say and act out words and use words in context through sentences</li> <li>▶ Recognise cultural representations in a variety of storybooks</li> </ul>
AC9E1LE03 AC9E1LE04		<p><b><u>Examining literature</u></b></p> <ul style="list-style-type: none"> <li>▶ discuss plot, character and setting, which are features of stories</li> <li>▶ listen to and discuss poems, chants, rhymes and songs, and imitate and invent sound patterns including alliteration and rhyme</li> </ul>	
AC9E1LE05		<p><b><u>Creating literature</u></b></p> <ul style="list-style-type: none"> <li>▶ orally retell or adapt a familiar story using plot and characters, language features including vocabulary, and structure of a familiar text, through role-play, writing, drawing or digital tools</li> </ul>

# InitialLit-2 Links with the ACARA English Curriculum V9

**Note:** This document was prepared in June 2022 in an endeavour to support teachers of InitialLit who may be aligning their instruction with the ACARA English Curriculum V9. Please refer to the 'Note about ...' each curriculum strand for specific information related to the InitialLit program and curriculum delivery.

Curriculum content is addressed in the three components of the program: Spelling, Comprehension and Fluency and Grammar, and consolidated in the small group and independent activities. Additionally, shared storybook lessons address many aspects of language and reading comprehension that further progress students towards the achievement standard. It is not possible to perfectly align the InitialLit-2 content description in this document with each of the relevant strands. This is because curriculum sub-strands are necessarily addressed across several areas of InitialLit instruction throughout the year.

ACARA Code	ACARA Content descriptions	InitialLit-2 lessons overview	InitialLit-2 content
<p><b>Note about Language and Literacy: Interacting with others (oral language) in InitialLit-2:</b> Oral language underpins all other component skills in literacy development and across all areas of learning across the curriculum. Curriculum content descriptors for the sub-strand: Language for interacting with others, are addressed throughout InitialLit-2 across the three explicit whole-class components: Spelling, Comprehension and Fluency and Grammar. They are also developed during the small-groups and independent activities. Skills for interacting with others are further extended during the Storybook component of the program, where quality storybooks are used to develop global oral language comprehension and production, utilising the interactive reading technique, vocabulary instruction and comprehension strategy practice.</p>			
AC9E2LA01	<p><b>Language</b></p> <p><b>Language for Interacting with others</b></p> <ul style="list-style-type: none"> <li>investigate how interpersonal language choices vary depending on the context, including the different roles taken on in interactions</li> </ul>	<p><b>InitialLit-2 components:</b></p> <ul style="list-style-type: none"> <li>Spelling</li> <li>Comprehension and fluency</li> <li>Growing grammar</li> <li>Storybook lessons</li> </ul>	
AC9E2LA02	<ul style="list-style-type: none"> <li>explore how language can be used for appreciating texts and providing reasons for preferences</li> </ul>		
AC9E2LY02	<p><b>Literacy</b></p> <p><b>Interacting with others</b></p> <ul style="list-style-type: none"> <li>use interaction skills when engaging with topics, actively listening to others, receiving instructions and extending own ideas, speaking appropriately, expressing and responding to opinions, making statements, and giving instructions</li> </ul>		
<p><b>Reading</b></p> <p><b>Note about Literacy: Analysing, interpreting and evaluating (reading fluency) in InitialLit-2:</b> By Year 2, most students will have sound decoding skills and so the aim in InitialLit-2 shifts to developing their fluency by providing many opportunities to practise these skills, having a positive impact on their reading comprehension skills. In addition to continuing to work on word-level fluency, InitialLit-2 also includes instruction to increase fluency of reading connected text using three main strategies: echo reading, paired/partner reading, and choral reading.</p> <p><b>Note about Literacy: Analysing, interpreting and evaluating (reading comprehension) in InitialLit-2:</b> InitialLit-2 offers explicit instruction in the seven effective comprehension strategies: predicting, connecting, visualising, asking questions, inferring, finding the main idea and summarising and monitoring. These are developed in the Comprehension and Fluency whole class lessons and are also practised in the small group sessions using the Read and Discuss (RAD) reading book and other age-appropriate books. Language and reading comprehension skills are also supported through engagement with quality storybooks that are read to students in the Shared Storybook sessions where the focus is on developing their oral language, vocabulary, world (or background) knowledge and literacy knowledge, including knowledge of different text structures.</p>			
<p><b>Comprehension and Fluency</b></p>			
AC9E2LA03	<p><b>Language</b></p> <p><b>Text structure and organisation</b></p> <ul style="list-style-type: none"> <li>identify how texts across the curriculum are organised differently and use language features depending on purposes</li> </ul>	<p><b>Lessons 1-12: Types of Text:</b> (imaginative, informative, persuasive)</p>

## Writing

**General overview: Note about Literacy: Creating texts (writing) in InitialLit-2:** InitialLit-2 places a strong emphasis on spelling and grammar to facilitate writing at a more sophisticated level. There is scope provided for extended writing tasks across all components of InitialLit-2 to reinforce the content (e.g., text structure knowledge, vocabulary, comprehension strategies) being taught explicitly. Teachers should plan additional time for creating texts with a focus on compositional skills, oral presentations and the use of digital technologies.

**Note about Literacy: Creating texts (handwriting) in InitialLit-2:** There is a particular focus on the development of handwriting skills in InitialLit-F and InitialLit-1. Content from AC9E2LY08 will be addressed in InitialLit-2 as students are given plenty of opportunities to practise their handwriting skills in written tasks to develop their automaticity in writing. This provides more working memory space for other aspects of writing such as composing texts and editing. Additional writing tasks using digital technology, including word processing applications, should also be included in teachers' class programs.

## Spelling

**Note about Literacy: Phonic and word knowledge (phonic knowledge and spelling) in InitialLit-2:** InitialLit utilises a sound-by-sound synthetic phonics approach to teach students to read and spell. The approach in InitialLit-2 is to teach students generative spelling strategies. This means that when they are taught to spell words using their knowledge of letter sound correspondences, or when they are taught morphology (for example, adding 'ing' to different types of words), it is intended that students will be able to apply these strategies both to taught and untaught words. It is also the intention that the skills taught in InitialLit-2 will transfer to their writing. Therefore, students should be provided with ample opportunities to use the words taught in different writing tasks. In InitialLit-2, much of the content that was introduced in InitialLit-1 will be revisited and expanded upon, in addition to the teaching of some new graphemes and spelling rules. This new content includes the suffix rules: drop final 'e', add -ing; double, add -ing; add suffix 'ful'; suffix 'es', 'ph' (phone), two syllable words-V/CV, prefix re, silent letters: k, b, w, when to use c/k, consonant + le (candle, bubble, table), tion (action, station). The quadgraphs 'augh' and 'ough' are taught incidentally when teaching the reading and spelling of tricky words.

### Growing Grammar

**Note about Language: Language for expressing and developing ideas (grammar) in InitialLit-2:** Grammar instruction in the context of reading and writing improves both writing quality and reading comprehension. InitialLit-2 offers further explicit instruction in a range of grammatical concepts that were introduced in InitialLit-1 to deepen the students' knowledge of these concepts as well as introducing new concepts in the Growing Grammar component. The lessons are designed to introduce students to the idea that sentences are made up of different kinds of words and that knowing about these will improve their reading and writing. There is also a short "Growing writing" task at the end of each lesson to apply these skills to their writing. Extended writing activities are also provided with each Storybook lesson. These writing tasks may be split over several sessions and cover four main types of text: imaginative, persuasive, informative and poetry. Step-by-step instructions take the students from a modelled example through to guided work and independent writing as they produce quality written responses. Teachers will also need to include additional focus on re-reading to edit created texts and the delivery of short oral and/or multimodal presentations using appropriate gesture, volume and pace.

AC9E2LA07	<b>Language</b> <b>Language for expressing and developing ideas</b> <ul style="list-style-type: none"> <li>▶ understand that in sentences nouns may be extended into noun groups using articles and adjectives, and verbs may be expressed as verb groups</li> </ul>	<b>Lessons 1-2</b> <b>Nouns</b>	<ul style="list-style-type: none"> <li>▶ Define the concept of a noun</li> <li>▶ Identify and explain nouns at word and sentence level</li> <li>▶ Understand and recognise common and proper nouns</li> <li>▶ Use correct letter case for common and proper nouns</li> <li>▶ Practise noun concept and usage in a variety of oral and written activities</li> </ul>

## Storybook lessons

**Note about Literature (vocabulary and comprehension) in InitialLit-2:** The content descriptors for vocabulary and comprehension outlined in the *three interrelated strands of Language, Literature and Literacy* are addressed across the explicit whole-class components: Spelling, Comprehension and Fluency, and Grammar. They are also developed during the small-groups and independent activities. These skills are further extended during the Storybook component of the program, where quality storybooks are used to develop rich vocabulary and comprehension skills.

ACARA Code	Language	Literature	Literacy
AC9E2LA03	<b>Text structure and organisation</b> <ul style="list-style-type: none"> <li>▶ identify how texts across the curriculum are organised differently and use language features depending on purposes</li> <li>▶ understand how texts are made cohesive by using personal and possessive pronouns and by omitting words that can be inferred</li> <li>▶ navigate print and screen texts using chapters, tables of contents, indexes, side-bar menus, drop-down menus or links</li> </ul>

		<b>Literature and contexts</b> <ul style="list-style-type: none"> <li>▶ discuss how characters and settings are connected in literature created by First Nations Australian, and wide-ranging Australian and world authors and illustrators</li> </ul>	
		<b>Engaging with and responding to literature</b> <ul style="list-style-type: none"> <li>▶ identify features of literary texts, such as characters and settings, and give reasons for personal preferences</li> </ul>	
		<b>Examining literature</b> <ul style="list-style-type: none"> <li>▶ discuss the characters and settings of a range of texts and identify how language is used to present these features in different ways</li> <li>▶ identify, reproduce and experiment with rhythmic sound and word patterns in poems, chants, rhymes or songs</li> </ul>	
		<b>Creating literature</b> <ul style="list-style-type: none"> <li>▶ create and edit literary texts by adapting structures and language features of familiar literary texts through drawing, writing, performance and digital tools</li> </ul>	
		<b>Analysing, interpreting and evaluating</b> <ul style="list-style-type: none"> <li>▶ identify the purpose and audience of imaginative, informative and persuasive texts</li> <li>▶ use comprehension strategies such as visualising, predicting, connecting, summarising, monitoring and questioning to build literal and inferred meaning</li> </ul>	
		<b>Creating texts</b> <ul style="list-style-type: none"> <li>▶ create and edit short imaginative, informative and persuasive written and/or multimodal texts for familiar audiences, using text structure appropriate to purpose, simple and compound sentences, noun groups and verb groups, topic-specific vocabulary, simple punctuation and common 2-syllable words</li> </ul>	

The Storybook component of InitialLit-2 is designed to encourage global oral language comprehension and production, while also fostering specific vocabulary growth. There is also a focus on the transference of oral skills to the written form.

Throughout the year, the varied activities of the Storybook lessons will address:

- ▶ Explain personal opinions orally using supporting reasons, simple inferences and reasonable prediction
- ▶ Contribute to group and class discussions about the story, characters and events
- ▶ Write texts in response to stories to describe characters and events and to express preferences
- ▶ Draw on personal experiences, background knowledge and text knowledge to express opinions and compose texts about varying aspects of the storybook
- ▶ Use a variety of planning strategies and tools for creating texts including graphic organisers
- ▶ Identify the purpose of different texts (imaginative, persuasive, informative and poetry)
- ▶ Show understanding of texts through appropriate written responses e.g., recounting events in stories or own similar events; writing poetry; using scaffolding to plan imaginative, informative and persuasive texts
- ▶ Apply knowledge of grammar concepts taught during the explicit part of the lesson to improve the quality of written texts
- ▶ Identify grammatical and figurative language features in texts that enhance meaning and purpose e.g., adjectives, synonyms, prepositions, time connectives, verbs, idioms, tense, alliteration, similes
- ▶ Express, discuss and compare opinions about characters, events and settings in text
- ▶ Identify concepts about print (directionality, front and back covers, title, author and blurb)
- ▶ Use comprehension strategies: predicting, connecting, visualising, asking questions, inferring, finding the main and summarising and monitoring to show understanding of story books
- ▶ Retell stories and events in logical sequence to demonstrate understanding of the text
- ▶ Respond to literal, inferential, definitional and evaluative questions during and after reading to develop reading comprehension
- ▶ Discuss, define and investigate new vocabulary by deeper exploration e.g., definitions, synonyms, antonyms
- ▶ Understand that choice of vocabulary adds to the effectiveness of the text
- ▶ Sort vocabulary items into parts of speech (nouns, verbs, adjectives and adverbs)
- ▶ Identify and discuss the structure of different types of text
- ▶ Identify and record the main ideas and key parts of the text using relevant template
- ▶ Make links to writing: plan, model and write own text using planning templates and following guidelines for type of text
- ▶ Recognise cultural representations in a variety of storybooks
