

InitialLit Readers

developed to support the InitialLit literacy program

What are **InitialLit** Readers?

MultiLit has developed four sets of 60 phonic readers for children who are just learning to read. These delightful decodable books are carefully sequenced to encourage children to use good reading strategies from the start.

Children who love adventure, humour, mischievous animals and learning about the world around them will enjoy our beautifully illustrated stories.

The decodable InitialLit Readers were originally developed to support InitialLit – a whole-class literacy instruction program for Foundation to Year 2 children, but can also be used independently or alongside other synthetic phonics programs.

InitialLit Readers Levels 1–9 are designed for children in the Foundation year of school. Series 1 and 2 are parallel series of similar level of difficulty, with some non-fiction texts featured in Series 2.

InitialLit Readers Levels 10–16 are for Year 1 students, and cover different text types, such as information texts, poems and plays, as well as stories. Series 2, also known as The Wattle Series, is written at an easier level than Series 1. These books feature lower word counts, simpler storylines and comprehension questions, and new vocabulary. The Wattle Series was the winner of the inaugural Decodable Book Series award at the 2022 Speech Pathology Australia Book of the Year awards. It is especially recommended for use alongside MiniLit Sage.

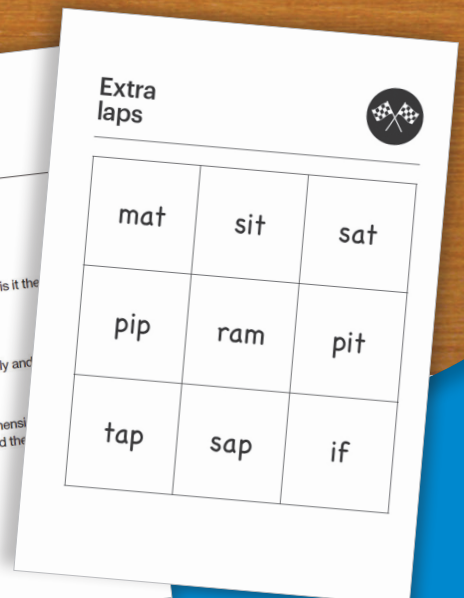

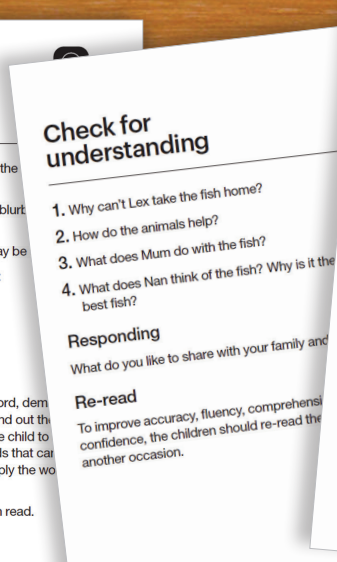

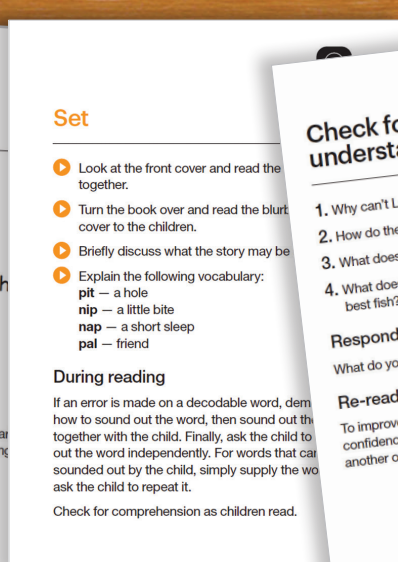

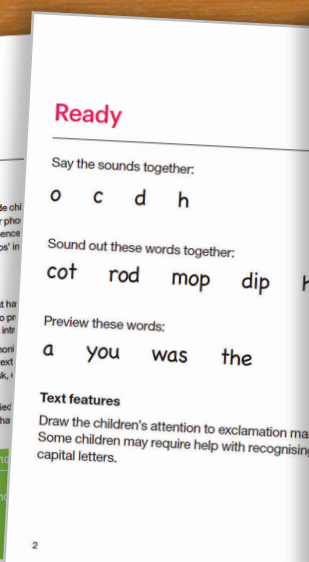

Enjoy these special features

- Easy-to-follow steps to prepare children for reading.
- Previewed target sounds and words, vocabulary and punctuation.
- Additional opportunities for children to practise sounding out words.
- Comprehension questions to check for understanding and encourage discussion.

Discover our shared readers

- Each level contains a shared reader, in which the teacher and child read alternate pages.
- The teacher pages contain more complex vocabulary and sentence structure, allowing for enhanced storylines.
- Shared readers provide opportunities for the teacher to model fluent and expressive reading to students.

To order InitialLit Readers or your MultiLit eLibrary subscription, visit multilit.com/readers.

The MultiLit eLibrary

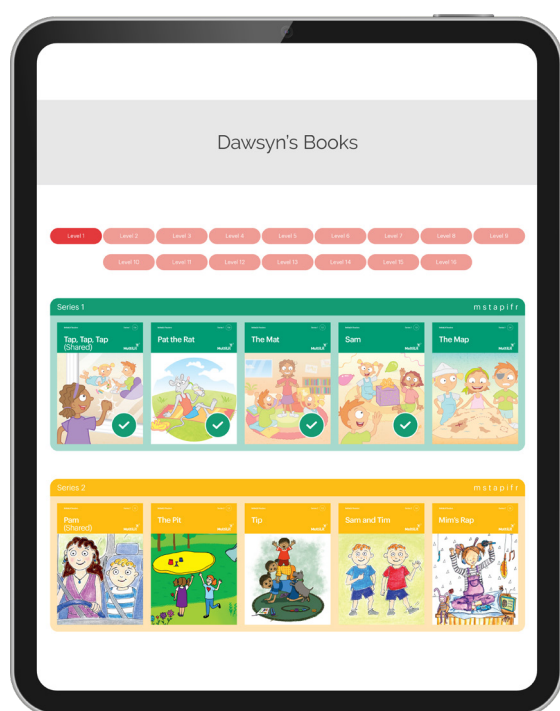

Providing students with decodable readers for home reading practice, as well as in the classroom, will help to supercharge their reading progress.

A subscription to the MultiLit eLibrary provides access to the full collection of InitialLit Readers online, as well as the Ignite Series of Firecracker Books.

The MultiLit eLibrary has been designed specifically for use for home reading, but can also be used within the school to supplement print copies of InitialLit Readers. The eLibrary uses a browser-based platform, so books can be read on desktop computers or mobile devices (including smartphones and tablets).

Subscriptions are offered on a fixed price basis for a 12-month period. You will receive a renewal notice one month prior to its expiry. Subscription pricing will update upon renewal to reflect the calendar year price. If your school requires additional accounts during the year, upgrades to the next subscription tier can be made by simply contacting us at library.multilit.com/contact.

TIER	NUMBER OF USERS	2025 PRICE
1	1-60	\$420
2	61-120	\$805
3	121-180	\$1,125
4	181-240	\$1,455
5	241-300	\$1,655
6	301-360	\$1,850
7	361-420	\$1,995
8	421-480	\$2,140
9	481+ (unlimited)	\$2,670

How it works

1. Login to your MultiLit Member account, select a subscription tier and nominate a MultiLit eLibrary administrator for your school. Note: only students count towards your total number of users.
2. Your MultiLit eLibrary administration account will be created, and login details will be emailed to your administrator (within two business days).
3. Your administrator will then be able to upload details of student and teacher users to the system, either individually or by using the CSV spreadsheet template for a bulk upload of users.
4. Account details will be automatically emailed to eLibrary administrators. Teachers can then allocate appropriate book series and levels for students to read.
